700Women.org

Every day four women die in the U.S. as a result of domestic violence. And more than 700 women are raped or sexually assaulted every day. We can stop these tragedies—but we urgently need your help. Join hundreds of thousands of women across the country in making sure that the Violence Against Women Act is reauthorized by Congress when it expires in September 2005. Please help! Millions—that's right, MILLIONS–of women and children will be better off as a result!

Tell Congress that 700 women is 700 too many. Sign the petition to reauthorize the Violence Against Women Act.*
